COST (European Cooperation in Science and Technology) is a funding agency for research and
innovation networks. Our Actions help connect research initiatives across Europe and enable scientists
to grow their ideas by sharing them with their peers. This boosts their research, career and innovation.

Facilitation Plan

This facilitation plan aims to ensure that CA 18213's communication efforts are strategic, inclusive, and impactful, reaching diverse audiences and actively engaging relevant stakeholders throughout the project's duration:

1. Enhance Communication Strategies:

- Conduct a comprehensive review of current communication strategies.
- Develop a communication plan aligning with CA 18213's goals, emphasising dissemination and communication to various audiences.

2. Strategic Planning for Communication:

- Stress the importance of strategic planning for communication activities from the project's inception.
- Encourage the formulation of a detailed communication strategy, ensuring that all stakeholders are considered.

3. Key Messages of CA 18213:

- Emphasize the key messages to be communicated, including successful interventions for rural NEETs, the impact of research on decision-making, and the human capital opportunity in rural areas.

4. Target Audiences:

- Clearly define the diverse audience groups, including researchers, policy-makers, NGOs, private companies, and the general public.
- Tailor communication tools and channels to suit the preferences and interests of each audience.

5. Diversify Communication Tools:

- Utilize a mix of communication tools to reach different audiences effectively.
- Emphasize the use of the website, social media, press releases, videos, and direct contacts with journalists to ensure broad coverage.

6. Align Networking Tools with Communication:

- Establish a template and checklist for each networking tool, incorporating a field for dissemination and communication strategies.
- Regularly review strategies with the communication team to align tools and channels effectively.

7. Deliverables and Evaluation:

- Task the communication team with producing a comprehensive booklet containing a facilitation plan.
- Include an evaluation of lessons learned in the facilitation plan, ensuring continuous improvement in communication strategies.

8. Stakeholder Involvement:

- Emphasize the importance of involving stakeholders at regional, national, and international levels.
- Encourage MC members to create and update mailing lists, target advocacy leaders, and organize events for stakeholder participation.

9. National/Regional Involvement:

- Mandate national MC members to organize working meetings with key advocacy groups and NGOs.
- Require national events and parliamentary hearings to disseminate CA 18213 deliverables and results.

10. International Stakeholder Engagement:

- Task the MC Chair, Vice-Chair, and WG Leaders with involving key international stakeholders.
- Propose the creation of a specific WG for outreach to stakeholders from year 2 onward.

11. Measures for Stakeholder Engagement:

- Develop a table categorizing stakeholders, reasons for involvement, types of engagement, and actions to facilitate involvement.
- Implement tools such as invitations, work meetings, hearings, and conference participation to engage stakeholders effectively.

12. Continuous Monitoring and Adjustment:

- Establish a routine for monitoring the effectiveness of communication and stakeholder engagement strategies.
- Be open to adjustments and improvements based on feedback, emerging needs, and changing circumstances.

4. Lessons learn and recommendations

In the realm of effective communication and content dissemination, selecting the right channel tailored to your target audience is paramount. Understanding the preferences and habits of your audience allows you to optimize your reach and impact.

Webinars emerge as a powerful tool for disseminating valuable content. They offer an interactive platform for engaging with the audience in real-time. Post-event, the content finds a lasting home on a YouTube channel, extending its accessibility beyond the live session. This strategy not only captures the immediate audience but caters to those who prefer consuming content at their own pace.

The effectiveness of content dissemination is inherently linked to the media employed. Video and image content, being more visually engaging, tend to perform better in capturing attention and conveying messages. Harnessing the power of visuals enhances the overall impact of the communication, making it more memorable and shareable across various platforms.

When it comes to a website, the most valuable assets are the deliverables. Whether they are downloadable resources, whitepapers, or exclusive content, these materials serve as a magnet for visitors. Providing tangible takeaways not only adds value to the user experience but also establishes your website as a go-to resource hub.

In conclusion, the success of content dissemination lies in a strategic approach that involves selecting the right channels, leveraging interactive tools like webinars, prioritizing visually compelling content, and offering valuable deliverables. By aligning these elements, organizations can create a robust and effective communication strategy that resonates with their target audience and leaves a lasting impact.
